Saturday Evening:

We will be holding an informal get together in the breakfast area at the hotel. We are keeping the menu simple – Pizza and soft drinks. If you want any other beverage you will need to bring it yourself. We may have a few presentations, prizes and maybe a guest speaker to entertain you. The exact time will be announced later and we will conclude early enough so you can partake of other activities in the area.

Sunday Activities:

We will hold our annual open membership meeting on Sunday. We may also be squeezing in a few seminars. Several raffles will be going on with all drawings to be held at the conclusion of the hunts.

Things to do:

Obviously touring the battlefield is number one. You could spend days there taking it all in. There are many ways to do it from simply driving around to bus tours. You can purchase or rent recordings, hire a guide or take a segway tour. There are many ghost tours each evening and some of them sell out early so get your tickets early. The town itself is filled with historical buildings and homes. Many shops abound. Suggest you go to the internet and check it all out. Before you book anything you might want to check out reviews.

Travel:

The closest airports are Baltimore, MD (1 ½ hour) and Harrisburg, PA. (1 hour)

ATTENTION

The use or possession of a metal detector on Gettysburg National Military Park property is a federal offense. You can be arrested, heavily fined and imprisoned. Your equipment will be confiscated and possibly even your vehicle too.

Laws & Policies

Gettysburg National Military Park is regulated by Federal Law, regulations set forth by the National Park Service and site-specific regulations designed to preserve and protect the resources of the park and Soldiers' National Cemetery, while providing a positive and safe environment for the visitor. These regulations are stated in the Superintendent's Compendium, which is available on this page.

PARK REGULATIONS IN BRIEF

The possession of metal detectors on park property is strictly prohibited. Relic hunting by the use of metal detectors or other means is prohibited and violators will be prosecuted.

Collecting of natural and cultural objects, including plants, animals, minerals, stones from walls, or other objects is strictly prohibited.

Notice that the POSSESSION of a metal detector is prohibited. That includes simply having it in your vehicle. So now that you know that we highly recommend the following

1. Leave your metal detectors in your hotel room. If that is not possible then we recommend that it is disassembled and completely out of site at all times. This also includes your digging tools etc.
2. If you have any metal detecting related stickers on your vehicle we suggest that you either remove or cover them so as not to draw attention to yourself.
3. Do not even speak of metal detecting while on park property. This will avoid any unnecessary problems or suspicions if someone overhears you.

If you plan on doing some metal detecting while in the Gettysburg area then be very certain that you know where you are, that metal detecting is allowed on the property you are on be it private or public, and you have proper permission to be there. The FMDAC is not responsible for anyone caught in an area they should not be. It is each individuals responsible to know the laws and what property you are on.
