

**Liberty Hall Plantation in Culpeper Co. Virginia
is holding its annual combination natural & “seeded” Relic Hunt on
April 24, 2021!**

Above are pictures of natural finds from the 2020 hunt.

We will have thousands of dollars’ worth of relics seeded (or by token) on the property, plus the opportunity to find natural relics. This one-day hunt is a great opportunity to hone your metal detecting skills. Even though the ground is highly mineralized, seeded relics and tokens will not be deep so most metal detectors will be fine. On the 2020 hunt over 200 natural bullets and at least one Confederate button left from the civil war was found. The prize tokens will be scattered in two fields only for a chance at some higher quality genuine civil war relics, civil war reference books, and more. Prizes will be won using a double-blind method. All prizes will be given away.

The plantation was occupied by both CSA and US forces during the war. There are 2 cannon emplacements on the property (prob from 1863), as well as a large US camp presence (from the winter of 1864).

This year’s relic prizes are high quality with the U.S. plates (Gaylord box plate) found at the Wilderness in the 80s and the GA frame buckle found in 2020 near the town of Orange, VA.

Sign up is online at: <http://signup.libertyhallva.com/Events/SignUp?EventId=30>

Cost is \$100 per person, payable upon online registration.
